Professional Summary

Senior Product Designer with 8+ years of experience designing scalable digital products across AI, SaaS, and Fashion-Tech industries. Proven expertise in UX strategy, interaction design, and design systems that improve usability and business performance. Skilled at collaborating with cross-functional teams to ship intuitive, high-impact products that drive engagement and efficiency.

Experience

Senior Product designer
Streamoid Technologies Pvt Ltd

Bangalore
Aug 2020 – Present

- Lead UX/UI strategy and design systems across AI-driven fashion and SaaS platforms, impacting global clients like ABFRL, Levi's, Pantaloons, and Farfetch.
- **Catalogix.ai**: Designed an intelligent fashion product management platform that streamlined workflows, improving team efficiency by 30%.
- **Piqit.in**: Built a mobile-first design system from the ground up, empowering creators and shoppers with a cohesive, AI-powered styling experience.
- **Streamoid.com**: Conceptualized and designed an AI Chat & Agent experience that unified three major products into a single interface.
- **Vortex (Stylebot)**: Defined interaction patterns and conversation flows for a fashion recommendation chatbot, improving user engagement and consistency.
- Partnered closely with developers to ensure design accuracy and seamless implementation across platforms.

Product Designer
Habitat Technologies Pvt Ltd

Chennai
Mar 2018 – Jul 2020

- Led product design for community-building and productivity SaaS tools used by startups and enterprise clients.
- **Habitat.io**: Designed a modular UI system supporting flexible community engagement features.
- **Orcaso.io** (Acquired): Delivered a streamlined task management experience with improved adoption and team collaboration.
- **Scrollme.today**: Crafted an integrated browsing experience aggregating diverse social media content.
- **Twixor** (Consultant): Enhanced the UX for a banking support platform, optimizing for complex workflows and usability.

Creative Designer
Kaalya Design Agency

Chennai
Nov 2017 – Mar 2018

- Designed responsive dashboards and landing pages across healthcare, real estate, and education clients.
- Applied user-centric design to increase engagement and conversions across B2B and B2C projects.
- Created reusable design templates that reduced delivery time by 25%.
- Partnered with developers for pixel-perfect handoff and improved cross-team workflow.

Visual Designer
Williams Lea Tag

Chennai
Aug 2017 – Nov 2017

- Created branded digital assets and microsites for global marketing campaigns.
- Developed Google Ads creatives and landing pages optimized for CTR and mobile responsiveness.
- Collaborated with art directors to ensure design consistency across campaigns and global markets.
